## EXPERIENCE

### Full Stack Developer & Freelancer

#### Freelance & Personal Projects

2023 - Present

Addis Ababa, Ethiopia

- Evolved from frontend developer to full stack engineer with 3+ years experience.
- Built production applications including Learning Management System and Amazon-style checkout with Stripe.
- Developed scalable and optimized apps using Next.js, MERN stack and modern tools.
- Delivered clean, user-focused and maintainable architecture.

### Full Stack MERN Developer

#### Debbal Tech

2024 - 2025

Jimma, Ethiopia

- Contributed to building professional company website with modern UI/UX.
- Implemented scalable backend and frontend features using Next.js and Node.js.
- Collaborated with team on production-ready solutions.

### Front-end Developer

#### Alif Developer

2023 - 2024

Jimma, Ethiopia

- Built responsive web interfaces using HTML, CSS, JavaScript, React and Next.js.
- Converted UI designs into dynamic applications.
- Integrated backend APIs and started working with MERN stack.

## PROJECTS

### Learning Management System (LMS)

#### Next.js, MERN, Stripe

2024 - Present

- Built full-feature LMS with course management, payments and protected routes.
- Implemented Amazon-style checkout with Stripe integration.
- Designed scalable backend with MongoDB and secure authentication.

### Amazon-style Checkout System

#### Next.js, MERN, Stripe

2024

- Multi-step checkout: Cart → Shipping → Payment → Confirmation.
- Secure backend validation and payment processing.
- Optimized UX and scalable architecture.

## EDUCATION

### Bachelor of Software Engineering

#### Jimma University

Sep 2021 - May 2025 Jimma, Ethiopia

Expected Graduation: 2025

## SKILLS

JavaScript TypeScript React Next.js  
Node.js Express.js MongoDB  
MERN Stack Stripe Tailwind CSS  
Shadcn/UI Prisma PostgreSQL Git  
REST API

## LANGUAGES

Amharic (Native) Oromic (Native)  
English (Professional)

## SUMMARY

Versatile Full Stack Software Engineer with strong backend expertise and hands-on experience building scalable, production-grade web applications. Skilled in designing secure and high-performance systems using modern technologies including Next.js, Node.js, PostgreSQL, MongoDB, and TypeScript. Experienced in architecting full platforms such as Learning Management Systems, SaaS backends, and secure payment integrations with Stripe. Known for writing clean, maintainable code, optimizing performance, and delivering user-focused solutions with solid system design and database architecture. Passionate about solving real-world problems through efficient, scalable, and well-structured software.
